

*"One powerful artistic statement"* **New Noise** (US)

*"Known for their emotionally charged, melody-driven sound and explosive live performances, the band continues to push forward with catchy hooks and raw energy"* **Thoughts Words Action** (UK)

*"Hunch Power do not shy away from making a bold statement"* **V13 Media** (Canada)

Hunch Power is an Alternative Rock band from Nottingham, UK. They straddle the line between the energy of Punk-Rock and the storytelling and introspection of Folk, giving audiences anthems to sing or dance along to, fist-in-the-air punchlines and thought-provoking lyrics to reflect on later.

Their music has been featured on **BBC Radio**, Sirius XM, Total Rock and Vive Le Rock!

They have played festivals such as **Dot to Dot**, Beat the Streets and Call of the Wild. They have performed for brands such as the **Record Store Day**, **Rough Trade**, **Signature Brew**, **Banquet Records** and charities like **War Child**.

Their single "All I Do Is Survive" was mixed and mastered by **Frank Turner**. The follow-up was "Accentuate the Negative" released last October with an Arts & Crafts video which defies the AI trend.

"Does It Hurt?" dropped on 20th March and they presented it live with **Buster Shuffle** in Manchester followed by **Laura Jane Grace** at Rescue Rooms in Nottingham and One Fall in Bristol.
